**CONCISE EXPLANATION OF
THE RELEVANCE OF NON-
ENGLISH LANGUAGE REFERENCE
LISTED ON THE INFORMATION
DISCLOSURE STATEMENT
PURSUANT TO 37 CFR 1.98(a)(3)(i)**

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

In addition to PTO Form 1449 that has been submitted herewith with respect to the above-identified application, and pursuant to 37 CFR 1.98(a)(3)(i), the applicant provides the following concise explanation of the relevance of the non-English language references identified below:

<u>Document No.</u>	<u>Date</u>	<u>Country</u>
DE 102 97 476 T5	11/2004	Germany
DE 102 18 394 A1	11/2003	Germany
DE 199 18 785 C1	2/2000	Germany

The above-identified patents were cited in a German Office Action dated June 17, 2005. A copy of the German Office Action is transmitted herewith.

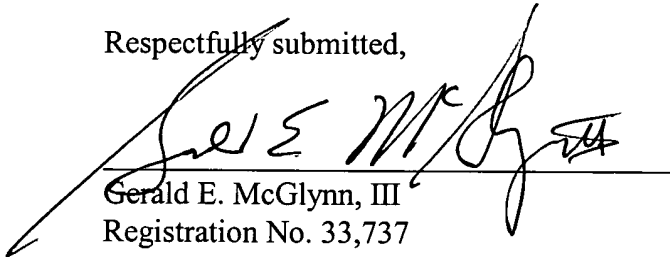

German Patent Publication No. DE 102 97 476 T5 discloses a seat recliner and latch mechanism that includes a housing, an upper quadrant rotatably supported by the housing, a recliner mechanism supported by the housing and operatively engaging the upper quadrant, and a latch mechanism that is pivotally supported by the housing and operable to selectively engage a floor striker. An actuation mechanism cooperates with the recliner and latch mechanism such that the

recliner mechanism enables rotational adjustment of the upper quadrant and the latch mechanism disengages the striker. The latch mechanism is pivotally supported about a pivot axis and rotates thereabout as the seat folds about a remote axis. An inner lock is engaged with the latch mechanism and is in selective engagement with the quadrant. The inner lock limits a range of rotation of the quadrant when the latch mechanism disengages the striker.

German Patent Publication No. DE 102 18 394 A1 discloses an automotive vehicle seat having a backrest locking mechanism.

German Patent Publication No. DE 199 18 785 C1 discloses a seat having a backrest locking mechanism.

Respectfully submitted,

Gerald E. McGlynn, III
